Gourav Giri

Aspiring Software Engineer || Java Developer || GSSoC-25 || DSA,
SQL || B.Tech CS '27

Ghaziabad, Uttar Pradesh, India

Summary

I'm a Java Backend Developer with a solid foundation in Data Structures & Algorithms and a passion for building scalable, efficient, and maintainable backend systems. Over the course of my experience, I've worked with Java, RESTful API development, and backend architecture, focusing on writing clean, robust, and performance-driven code.

What excites me most is solving complex problems and turning ideas into reliable software solutions that improve performance and create impact. I thrive in collaborative environments where I can share knowledge, learn from others, and continuously sharpen my skills.

I'm always open to exploring new challenges and growth opportunities in software engineering — especially roles that allow me to leverage my backend expertise, contribute to impactful projects, and drive innovation in system design.

Let's connect if you're looking to collaborate, share ideas, or discuss opportunities in backend development and software engineering.

Experience

Unstop Igniters club ABESEC

Technical Lead

December 2024 - November 2025 (1 year)

Uttar Pradesh, India

GirlScript Summer of Code

Contributor

July 2025 - October 2025 (4 months)

Education

ABES Engineering College

Bachelor of Technology - BTech, Computer Science · (September 2023 - September 2027)

Ch. Chhabil Dass Public School Ghaziabad

Class 12th , PCM · (March 2021 - March 2023)

St. Teresa's Convent School

Class 10th · (March 2008 - March 2021)
